Special Relationships

Catherine Péré-Vergé's father created Cristal D'arques International one of the most important glass manufacturer in the world. She has been in charge of this giant company (30.000 people working in) during all her career with her brother and sisters. She started to invest in the wine business in 1985, buying Château Montviel in Pomerol. Then in the 90's, she invested in Château La Gravière, Lalande de Pomerol and started in new project in Argentina with Michel Rolland : Bodega Monteviejo. She is co-partner at Clos de los Siete, one of the main wine project ever made in South America. 2002, she bought Ch. Le Gay. One of the "big name" of Pomerol. She totally renovated the vineyard & cellar and started to improve the quality of the wines for a maximum quality. Last investment was in 2005 with Ch. La Violette. One of the greatest terroir in Pomerol. This is her final investment on this appellation and probably the most exciting one. A new challenge is started : Being a new competitor to Ch. Le Pin, closest neighbour of Ch. La Violette. Catherine also spend her time on other fields of activity, such as financial investments or restaurant business (working in partnership with Alain Ducasse group). Recently 70 years old, she has many project for the future... and why not investing in an other great vineyard of Bordeaux...?

Below is a list of the wines that Le Ferme de Rougefort represents, all of which have received favorable press in Robert Parker's Wine Advocate.

- Château Le Gay (Pomerol)
